

### Exhibitions

Both within and outside the Viewbungalow one may enjoy continuing varying exhibitions by local and (inter)national artists. As yet five (visual) artists have constructed and placed permanent works.

We have made Academy Minerva in Groningen the offer of using the Viewbungalow as exhibition space on behalf of examinees or recently qualified artists.

By now Academy Minerva has decided to incorporate our project into her course program: 'Commissioned Art'.

### Visitors

Interest in our project proves to be local, regional, national and international. Our foreign visitors have included people from Germany, Belgium, Poland, Italy, USA and Libya.

Since last October nearly 3,000 people have visited our project.

We are delighted with the various kinds of positive and supporting response to our unique project a.o. from our immediate surroundings.

We would appreciate it greatly if the municipal council too were to make use of our project (e.g. council excursion, foreign visitors?)

We feel that with the realization of our project we are making a positive contribution towards SOCIAL INNOVATION ( an initiative on a districtional level), PUBLIC HOUSING and CULTURE.

Through this project regional and (inter)national artists will get the opportunity to exhibit their works.

We are aware of the fact that your present office entails many duties.

We hope that you are willing to free some time to be in our midst on September 26.

We wish you every success in your new function and await your reply.

With kind 'Minerva-regards'

Yours sincerely,

Encl. 2
